Technology • Policy • Governance

As India seeks to improve the quality of life for its citizens; technology, policy, and governance must converge to address complex public challenges.

PRAG (प्राग) at IIT Gandhinagar is an interdisciplinary platform that brings together researchers, practitioners, policymakers, and students to generate evidence, foster innovation, and translate ideas into actionable solutions for more inclusive, effective, and sustainable public systems.

**Bridging
Technology, Policy & Governance
for a better tomorrow**
